

- Features:**
- * Insulated
 - * Form: NO/NC/SPST/Mount dependent
 - * Angles Referenced from Horizontal
 - * Hermetically Sealed
 - * Small Package Size
 - * Narrow Included Angle
 - * Low Contact Resistance
 - * Long Life

Drawing dimensions in inches.

Tilt switches "make" when the electrode is tilted below horizontal and "break" when tilted above the horizontal. Total travel from "make" to "break" is the "Maximum included angle" shown below. The component to which the switch is attached must have a total tilt angle greater than the "Maximum included angle" for proper operation.
